Description

In 1949 the 1st SOS Children's Village in the world was founded.

The SOS Children's Village themed walk in Imst presents the development of the SOS Children's Village from its beginnings to the present day. To date, about 20 stages were generated with the support of the municipality, Imst Tourismus, kindergartens, schools, clubs, companies and individuals. On account of this successful collaboration aspects of a happy childhood could be staged.
